

Strategy and operations. I diagnose the problem, design how the work should run, and build what it needs. Experience across a growing insurtech, a 32-person venture studio and an embedded data business.

EXPERIENCE

RVYSION

March 2024 to present

Co-founder, strategy and operations

Designing commercial, operating and venture systems for a 32-person venture studio.

- Grew the client base by 35% through acquisition and partnership work.
- Reduced operating expenses by 12% through resource, cash-flow and operating management.
- Created 22% more revenue opportunities within six months by launching a lower-priced offer.
- Client work through the studio: led the product and service team through the rebuild of Idara, a registration and compliance platform (Nigeria and Ghana); led delivery of HoneyCoin's peer app redesign and business platform (Kenya).

THE BREDGE

Current

Strategy and operations

Building the operating model for a senior embedded data partner.

- Shaping the positioning, the offer and the service architecture.
- Connecting technology, workflow and delivery into one operating model.
- Building go-to-market and feedback loops so the service can be repeated.

SURFACE TALENT

15 June to 4 September 2026

MBA internship: research, design, implementation and verification

- Built the operating foundation for a specialist recruitment venture in UK surface engineering and metal finishing, keeping the existing CRM and adding a role and candidate evidence layer.
- Found that candidate profiles had dropped evidence present in the original CVs; reworked the evidence flow and rescored active candidates. The assessment and interview analysis supported a hiring process; the successful candidate started in August 2026.

ETAP

2022 to 2024

Executive support, then Senior Operations Manager

Operations leadership at a growing insurtech in Nigeria and Ghana. Named 2023 Employee of the Year.

- Built the first enterprise channel, from market mapping through launch to seven-figure gross premiums within months.
- Reduced claims turnaround by 57% by redesigning operational handoffs.
- Supported fundraising readiness, investor materials and market expansion.
